Task
Deliverable 1 – Requirements Docum
Functional and non-functional system requirements
Domain Model
Use Cases
Requirements-level sequence diagram for "Add Album" use case
Source code of prototype implementation of "Add Album" use case on each supported platform
Implementation-level sequence diagram for "Add Album" use case for each supported platform
Work plan for remaining iterations
Make sure everything is in order for submission of deliverable
Deliverable 2 – Design Spe
Description of architecture of proposed solution including block diagram
Description of detailed design of proposed solution including class diagram
Implement Requirement "HAS7706"
Implement Requirement "HAS7707"
Implement Requirement "HAS7708"
Update of work plan
Make sure everything is in order for submission of deliverable
Deliverable 3 – Quality Assu
Description of unit testing
Description of component testing
Description of system testing
Description of performance/stress testing
Implement Requirement "HAS7703"
Implement Requirement "HAS7704"
Implement Requirement "HAS7705"
Implement Requirement "HAS7709"
Implement Requirement "HAS7710"
Update of work plan
Make sure everything is in order for submission of deliverable
Deliverable 4 – Release Pip
Description of release pipeline
Implement Requirement "HAS7702"
Implement Requirement "HAS7711"
Implement Requirement "HAS7712"

Implement Requirement "HAS7713"
Implement Requirement "HAS7714"
Implement Requirement "HAS7715"
Update of work plan
Make sure everything is in order for submission of deliverable
Deliverable 5 – Presenta
Prepare Powerpoint presentation
Prepare script to say
Fully test application
Present project
Deliverable 6 – Final Appl
Source code of full implementation on each supported platform
